## Partners

### **Mission Statement**

*To promote a quality of life based on developing the fullest potential for children, families, and individuals through an integrated, collaborative, and comprehensive system of health, education, and human services in Fulton County, PA.*

**What is the Fulton County Family Partnership?** A non-profit human service agency that provides support, education and resources to families in Fulton County as well as a forum for county Health, Human Service, Government, Education and consumers. These Partners collaborate toward the goals of making services readily available, reducing duplication of services and meeting the needs of the residents of Fulton County. The most identifiable programs of the FCFP are the Family Center, Dental Clinic and Transportation Services. To help ensure FCFP meets the needs of the county, they established a community collaborative planning network known as The Partners.

**What do the Partners do?** The purpose of the Partner Meeting is to assess the health and human service needs of Fulton County residents using the public health model to identify and plan strategies to meet those needs. The Partners:

- Identify community needs and gaps in services in the areas of Health and Human Services.
- Set priorities for action based on community strengths
- Define clear, measurable outcomes that can be tracked over time to show progress.
- Select tested, effective programs, policies and practices.
- Evaluate progress toward desired outcomes.
- Continue process of identification of gaps, priorities, outcomes, practices and evaluation.

**How do the Partners collaborate?** The format of the Partner Meeting ensures that the collaborative group strives to make services readily available, reduce or eliminate duplication of services, and provide a forum for all those who have a stake in this county to work together to identify and solve problems.

The Partners:

- Meet typically on the 3<sup>rd</sup> Tuesday of each month from 12:00pm – 1:00pm.
- Use current community analysis tools like the Fulton County Medical Center Community Health Needs Assessment and PA Youth Survey to guide a “full” calendar of meaningful and up-to-date topics to be presented each meeting.
- Engage speakers who deliver pertinent information on the designated monthly topic.
- Work to strengthen and secure resources to support the programs and practices.

**How can you benefit by being a Partner?** By being engaged in the Partner meeting, you have the opportunity to become part of an integrated network of services in Fulton County. We can identify community needs by taking time to meet. We can reduce the duplication of services by working together. We can prevent people from falling through the cracks by combining our resources. This allows the county to have local control and flexibility to maintain support and sustainability. By focusing on outcomes we ensure accountability for resources.
